Connect the Coastside Presentation
Half Moon Bay City Council Briefing
March 15, 2016
Identification and Evaluation of Recommended Transportation Alternative to Address Deficiencies
Estimate the buildout development potential of the Midcoast and Half Moon Bay as permitted by LCP, General Plan, zoning and pertinent regulations

Identify the potential impacts of growth on traffic, mobility and safety

Identify and evaluate measures to minimize and mitigate the impacts of growth

Develop a plan for funding and implementing transportation improvements
San Mateo County is the project sponsor for Connect the Coastside.

This plan is to meet the requirements of the County’s Local Coastal Program and is separate from the City of Half Moon Bay’s Local Coastal Program and General Plan updates. Recommendations for areas in Half Moon Bay are advisory only.
Recommended Alternative

**Background**

- Buildout and Constrained Development Forecast used to understand potential impacts on transportation system
- Recommended measures to minimize and mitigate the impacts of growth
  - Transportation improvements
  - Land use policies
Recommended Alternative

Background

- Not intended to be an all-inclusive list of improvements that can or will occur in the Half Moon Bay and the Midcoast region

- List of recommended improvements that directly align with the goals and objectives of this study
Midcoast Intersection Deficiencies

Unsignalized intersections that have a deficient LOS and meet a signal warrant (sufficient side street volume)

Signalized LOS worse than LOS D
Half Moon Bay Intersection Deficiencies

- **North Half Moon Bay**
  - Widen
  - Signalize and widen approach
  - Signalize

- **South Half Moon Bay**
  - Widen
  - Restrict Turning
  - Signalize
Intersection Deficiencies

- Unsignalized Intersections
  - Highway 1 & Spindrift Way
  - Highway 1 & Grandview Boulevard

By separating the right- and left-turns, the signal warrant is no longer met.
Intersection Deficiencies

Unsignalized Intersections
- Highway 1 & Terrace Avenue
- Highway 1 & Main Street South

Already Planned Design under Caltrans Review
Intersection Deficiencies

Unsignalized Intersections

Highway 1 & Filbert Street

Highway 1 & Seymour Street
Intersection Deficiencies

Signalized Intersections

- Highway 1 & Ruisseau Francois Avenue
- 600’ four-lane section plus taper
Signalized Intersections
- Highway 1 & Poplar Avenue
- Connect four lane section at Kelly Ave and South Main
Roadway Deficiencies

Travel time along a cars-only segment with longer than 2x freeflow travel time.
Travel time along a multi-modal segment with longer than 3x freeflow travel time.
# Roadway Deficiencies

## Deficiencies at Full Buildout

</table>

**BOLD** – Does not meet Standard (2.0)

Conversion of the roadway to a Multi-Modal Facility (Addition of a Class II Bicycle lane) will raise the standard to 3.0
Roadway Deficiencies

Causes of congestion and delay

1-lane section
merge bottleneck

2-lane section

signal bottleneck

1-lane section
merge bottleneck

signal bottleneck

North Half Moon Bay
Roadway Deficiencies

North Half Moon Bay

Coordination will allow for better flow through downtown Half Moon Bay
Roadway and Intersection Circulation and Safety

Roadway Improvements

- Defined curb and shoulder for consistent cross section
- Consolidation of access along Rocket Farms driveways between Mirada Road and Young Avenue
Roadway and Intersection Circulation and Safety

Roadway Improvements

- Left-turn lanes at major businesses along SR 92 in Half Moon Bay
- SR-92 climbing lane between the quarry and existing lanes
- “Trucks use right lane” signs along climbing lane
Pedestrian Deficiencies

Segments along Highway 1 with potential for pedestrian demand that do not provide sufficient pedestrian facilities (PEQI score)

Segments along Highway 1 with potential for pedestrian demand without crossing opportunities every ½ mile
Pedestrian Improvements

- Pedestrian count-down timers on signalized crosswalks
- Signal timing adjusted to meet 3.5 feet per second crossing speed MUTCD requirement
- Pedestrian refuges on wide crossings
- ADA compliant walking paths along Highway 1 in Montara, Moss Beach, Miramar, and downtown areas of Half Moon Bay with:
  - 6’ wide obstruction-free path
  - Pedestrian scale lighting
Additional crossings to reduce the distance between crossings to ½ mile in pedestrian areas
## Effect on Delay Index

<td>1.97 (+0.02)</td>
</tr>
</tbody>
</table>
Bicycle Deficiencies

Segments along Highway 1 without sufficient bicycle facilities (BEQI score)

Bicycle storage at beach access points and major trip generators that operate at more than 85% occupancy on average during the weekend midday peak
Bicycle Deficiencies

Bicycle Improvements

- Making the Parallel Trail continuous
  - 2nd Street to Ruisseau Francois Ave
  - Wavecrest Rd to southern HMB border

- Making the Coastal Trail continuous
  - Devil’s Slide trail to 2nd Street
  - Cypress Avenue between highway 1 and Airport Street
  - Paving the dirt trail in south HMB

- Class II bicycle lane in both directions along Highway 1
Transit Deficiencies

Utilization of buses standing capacity exceeding a 2-hour average of 85%

Bus stops with an average of at least 25 daily boardings without a bench for riders.

Bus stops with an average of at least 100 daily boardings without a shelter
Transit Improvements

Benches installed at the following locations:
- Highway 1 & SR-92 (Average of 16 daily riders)
- Strawflower Shopping Center (Average of 29 daily boardings)
- Kelly Avenue & Church Street (Average of 24 daily boardings)
- Main Street & Lewis Foster Drive (Average of 21 daily boardings)

Averages reflect 2015 ridership
Transit Safety and Circulation

Transit Improvements

- Shuttle bus service on summer and fall weekends during special events
- More frequent weekend service for exiting SamTrans routes 294 and 17
- Park-and-Ride shuttle for existing parking lots
- School Bus service for El Cabrillo Unified with storage and maintenance facilities
Parking Deficiencies

Utilization of beach access parking lot capacity exceeding an average of 85% during the weekend midday peak
Parking Deficiencies

- Parking Improvements
  - Park-and-Ride shuttle to serve over-capacity lots or collect a parking charge to bring occupancy to 85%
  - Improved wayfinding signage

Land Use Policy Concepts

Land Use Policy Concepts
Land Use Policy Concepts

- **Paper subdivisions**
  - Revised Criteria for Legalization of Parcels Included Within Historic Recorded Subdivisions requires chain of title
  - Estimated 183 parcels in County jurisdiction

- **Substandard lots**
  - Lots that do not meet minimum lot size or lot width standards
  - Use permit required where lot is very substandard (smaller than 3,500sf or 35 ft wide where 5,000sf and 50 ft minimums apply)
Mandatory Lot Merger Program

- Zoning, Subdivision Ordinance establish process for merger of contiguous parcels
- Board of Supervisors adopted policy in 2006 authorizing mandatory lot merger program
  - At least 2 contiguous parcels in same ownership
  - At least 1 parcel undeveloped
  - Area of at least one parcel <4,500sf in R-1 or R-3, <5,000sf in RM-CZ
  - Voucher for development bonus offered for voluntary merger
  - Process of hearing and appeals for mandatory merger
Mandatory Lot Merger Program

- Lot Merger program would support LCP policy 1.21: Lot Consolidation
- Lot Merger assumed in buildout calculation, consistent with methodology used for Midcoast LCP
- 216 lots estimated eligible in Unincorporated Midcoast
- Vacant substandard lots would decrease by 40%
Mandatory Lot Retirement Program

- Require 1:1 retirement of development rights on existing lots in exchange for new lots
- Coastal Commission has required this as Condition of Approval for some recent projects, recommended program for Midcoast LCP

Proposed policy concept for CTMP:

- Donor sites: located outside of existing developed areas; in areas containing sensitive habitat; or designated for Conservation, Open Space, Recreation or Agriculture
- Apply only when new residential subdivision is proposed; do not apply to infill development
Mandatory Lot Retirement Program

Lot Retirement program would follow Coastal Commission recommendation

Estimated 148 eligible donor lots in unincorporated Midcoast, assuming Lot Merger program also in effect
Rural Midcoast
Traffic Fee Mitigation Program

- Traffic Impact Fee could be established to help fund recommended improvements
- Would apply to new housing and commercial, at rate based on proportion of need attributable to new development; estimated at 30 to 40%
- Not a growth management strategy, but could have the effect of lowering development
