Connect the Coastside is a Comprehensive Transportation Management Plan that will identify programs and improvements along Highway 1, Highway 92 and our arterial roads to accommodate the Midcoast’s future transportation needs.
The Plan will evaluate the existing and future residential and non-residential development potential of the Midcoast and City of Half Moon Bay by conducting a land use build-out analysis and an assessment of the current and future transportation system.
What is Connect the Coastside?

- The Plan will also provide an assessment of implementation costs and identify potential sources of funding.

- The project is a requirement of the California Coastal Commission’s approval of the County’s Local Coastal Program.
The Plan will identify measures to ensure future residential and non-residential development can be supported by the future transportation system and infrastructure.
Coordination with Other Studies

- Highway 1 Safety and Mobility Improvement Studies
- City of Half Moon Bay General Plan Update
- Plan Princeton
- San Mateo County Congestion Management Plan
- Recreation Parking Assessment
The Process

- Technical evaluation of current and future traffic conditions and multi-modal needs.
- Coordination with local agencies and other planning efforts.
- Development of a finance plan – what can we afford?
Recommendations for future development and investments.

The entire process should take approximately 14 months.
